DESCRIPTION ke...@gmail.com created issue #1

Description

During the installation of a different application from the Play Store, an issue arises where audio recording functionality becomes silenced. There could be a audio permission conflict that causes LOG:

```

Assigned to ra...@google.com.

Thank you for reporting this issue. For us to further investigate this issue, please provide the following additional information:

Can you confirm if this issue is reproducible on Pixel/Nexus device?

Are you reporting this as Developer or User?

Screen Record of the Issue
Please capture screen record or video of the issue using following steps:
adb shell screenrecord /sdcard/video.mp4
Subsequently use following command to pull the recorded file:
adb pull /sdcard/video.mp4
Attach the file to this issue.

Android bug report (to be captured after reproducing the issue)
For steps to capture a bug report, please refer: <https://developer.android.com/studio/debug/bug-report#bugreportdevice>

Alternate method
Navigate to "Developer options", ensure "USB debugging" is enabled, then enable "Bug report shortcut". Capture bug report by holding the power button and selecting the "Take bug report" o

Note: Please upload the bug report and screenrecord to google drive and share the folder to android-bugreport@google.com, then share the link here.
