DESCRIPTION al...@gmail.com created issue #1

Feb 21, 2019 12:21AM

Hi,

I get the following error when trying to Profile my app on Android Studio 3.3.1 on a Pixel 2XL with Android 9.

It seems to work fine when I run the same thing on a device with Android 7.0

Status: Duplicate of [124813112](#)

Thanks for the feedback. Is it possible to share a sample project or debuggable APK that can reproduce this issue?

Hi Tanase, we're trying to debug this issue. Is it possible to get a dump of your app build data and uploaded to a shared Google Drive folder (which I already created)?

Just run these commands:

```
% adb shell "tar -cf /data/local/tmp/data.tar $(adb shell pm dump <package.name.here> | grep codePath | cut -d= -f2-)"
% adb pull /data/local/tmp/data.tar
% adb shell rm /data/local/tmp/data.tar
```

And then upload data.tar to the shared folder.
Thank you!

Hi,

Sure, I'll upload the file on Monday.

Thank you very much for your support

Hello,

After management review, unfortunately, I'm unable to provide the requested files as it would breach client NDA.

Thank you for your help on this issue.
