STATUS UPDATE No update yet.

Edit

DESCRIPTION ma...@gmail.com created issue #1

Jetpack Compose version: 1.1.1

Jetpack Compose component used: Compose Navigation NavHost (maybe? Because it responds to back buttons)

Android Studio Build: 2021.1.1 patch 3

Kotlin version: 1.6.10

I get this error once in a while. Can't reproduce it reliably. I think it happens when I frantically press the UI soft back button, and the compose node that processes it is already gone... I guess.

Stack trace (if applicable):

```
java.lang.IllegalStateException: KeyEvent can't be processed because this key input node is not active.
