Same here with newer jackson version 2.15.1

 **on...@withjoy.com** <on...@withjoy.com> [#3](#) May 26, 2023 04:55AM ⋮

In the meantime, I found a workaround which is disabling Jetifier for `jackson-core` by adding the following to `gradle.properties`:

```
android.jetifier.ignorelist = jackson-core
```

 **al...@gmail.com** <al...@gmail.com> [#4](#) May 26, 2023 12:13PM ⋮

It didn't work for me. Solved the issue by turning off jetifier. I also had to abandon libraries that do not support AndroidX.

 **hu...@google.com** <hu...@google.com> [#5](#) May 27, 2023 06:44PM ⋮

Marked as fixed, reassigned to hu...@google.com.

Please try the workarounds above (or see [Issue 184622491](#)).

You can also try updating to the latest version of the Android Gradle plugin and see if it helps.

I'm closing this report as we are not maintaining Jetifier anymore. Thanks for this report!
