Thank you for reporting this issue. For us to further investigate this issue, please provide the following additional information:

Device used -- Device Make, Model, Android OS Version  
Which device did you use to reproduce this issue?

For support library issues, use the below steps to help guide reproduction of the issue:

Please provide sample project or apk to reproduce the issue. Also mention the steps to be followed for reproducing the issue with the given sample project or apk.

Frequency  
How frequently does this issue occur? (e.g 100% of the time, 10% of the time)

Expected output  
What is the expected output?

Current output  
What is the current output?

Android bug report (to be captured after reproducing the issue)  
For steps to capture a bug report, please refer: <https://developer.android.com/studio/debug/bug-report#bugreportdevice>

Alternate method

Navigate to "Developer options", ensure "USB debugging" is enabled, then enable "Bug report shortcut". Capture bug report by holding the power button and selecting the "Take bug report" option.

Screen Record of the Issue

Please capture screen record or video of the issue using following steps:

adb shell screenrecord /sdcard/video.mp4

Subsequently use following command to pull the recorded file:

adb pull /sdcard/video.mp4

Attach the file to this issue.

Note: Please upload the bug report and screenshot to google drive and share the folder to [android-bugreport@google.com](mailto:android-bugreport@google.com), then share the link here.
