Edit

 DESCRIPTION

ky...@gmail.com created issue [#1](#)

Nov 16, 2015 05:34PM 

Android.mk文件

LOCAL_PATH := \$(call my-dir)

.....

include \$(LOCAL_PATH)/../../../../frame_rep/trunk/src/make/android/jni/[netlib.mk](#)

编译的时候提示:

D:/MDTTCODE/trunk/frame_obd2/trunk/src_logic/make/android/jni/Android.mk:58: D:/MDTTCODE/trunk/frame_obd2/trunk/src_logi
c/make/android/jni/../../../../src_core/make/android/jni/../../../../src_engine/make/android/jni/../../../../frame
_rep/trunk/src/make/android/jni/../../../../frame_rep/trunk/src/make/android/jni/[mathlib.mk](#): No such file or direc
tory

原因:

\$(LOCAL_PATH)/../../../../frame_rep/trunk/src/make/android/jni/[netlib.mk](#)
被展开后变得特别长, 以至于超过了windows的最大文件路径长度

编译环境: womdows, 在linux下是正常的

Assigned to ss...@google.com.

Hi,

Can you provide the below requested information to better understand the issue:

please provide the information in English(US).

SDK version

Which version of the SDK are you using?

Android build

Which Android build are you using? (e.g. KVT49L)

Device used

Which device did you use to reproduce this issue?

Steps to reproduce

What steps do others need to take in order to reproduce the issue themselves?

Frequency

How frequently does this issue occur? (e.g 100% of the time, 10% of the time)

Expected outputWhat do you expect to occur?

Current output

What do you see instead?

logcat output

See

[http://developer.android.com/tools/help/logcat.html](#)

. Copy and paste relevant

sections of the logcat output into this issue.

Android bug report

After reproducing the issue, press the volume up, volume down, and power buttons

simultaneously. This will capture a bug report on your device in the "bug reports"

directory. Attach this file to this issue.

Note: Please upload the bug report and screenshot to google drive and share the folder

to
