Fixed Bug P3 + [AOSP] assigned

STATUS UPDATE No update yet. Edit

DESCRIPTION sa...@gmail.com created issue #1

Feb 15, 2018 10:25PM

Hi,

In oreo 8.1 while we were testing in our product we found there is a random crash in google search box and once it crashed its coming continously.

- Steps to reproduce the problem

- 1) tap on launcher screen in google search widget.
 - 2) speak "OK google" or anything
 - 3) continue the same for 15/20 minutes.
 - 4) randomly crash is seen in search widget
 - 5) If once crash happen it will come continously
- Reproduction rate: 4 times out of 10

What happened:

Google search box is crashing continuous.
crash has seen at uid=10038(com.google.android.googlequicksearchbox)

Assigned to ad...@google.com.

Thank you for reporting this issue. For us to further investigate this issue, please provide the following additional information:

Android build

Which Android build are you using? (e.g. KVT49L)

Device used

Which device did you use to reproduce this issue?

Issue details

Please explain the issue you are facing in detail

Android bug report

After reproducing the issue, press the volume up, volume down, and power button simultaneously. This will capture a bug report on your device in the "bug reports" directory. Attach the bug report file to this issue.

Alternate method:

After reproducing the issue, navigate to developer settings, ensure 'USB debugging' is enabled, then enable 'Bug report shortcut'. To take bug report, hold the power button and select the 'Take bug report' option.

Please upload the files to google drive and share the folder to android-bugreport@google.com, then share the link here.
