"... to address the issue reported, however our product team has shifted work priority that doesn't include this issue. For now, we will be closing the issue as won't fix obsolete. If this issue currently sti

COMMENTS

ar...@google.com

<ar...@google.com> #2

Assigned to ar...@google.com.

Can you provide the below requested information to better understand the issue:

Android build

Which Android build are you using? (e.g. KVT49L)

Device used

Which device did you use to reproduce this issue?

Steps to reproduce

What steps do others need to take in order to reproduce the issue themselves?

Frequency

How frequently does this issue occur? (e.g 100% of the time, 10% of the time)

Expected output

What do you expect to occur?

Current output

What do you see instead?

Android bug report:

After reproducing the issue, navigate to developer settings, ensure 'USB debugging' is enabled, then enable 'Bug report shortcut'. To take bug report, hold the power button and select the 'Take bug report'.

After reproduce the issue, navigate to Settings->System->Developer Options, ensure "USB debugging" is enabled. Then enable "Bug report shortcut".

To capture bug report, hold power button and select "Take bug report".

Note: Please upload the files to google drive and share the folder to android-bugreport@google.com, then share the link here.
